# LEADING EDGE FABRICATION

## RESIDENTIAL. COMMERCIAL. INDUSTRIAL.

From medium to large scale jobs, we successfully partner with building and industrial steel fabricators to efficiently produce a variety of projects such as retail apartments, schools and other community buildings.

We follow the whole process from start to finish: Pricing a tender, fabricating at our workshop and erecting onsite.

All our staff have a minimum of 5 years industry experience. Some of our senior staff have been in the industry for over 30 years. All our welders are ticketed welders with current licences.

Take a look at our website [www.leadingedgefab.co.nz](http://www.leadingedgefab.co.nz) for more examples of our past work. Contact us today to talk about your project!
